Our target audience is students, professionals and managers who want to learn about the overall Web 3.0 landscape, the investments, the size of markets, major players and the global reach, as well as the economic and social value of applications. We present applications that use Web 3.0 technologies to unlock value in DeFi, NFTs, supply chains, media, identity, credentials, metaverses and more. Readers will learn about the underlying technologies, the maturity of Web 3.0 today and the future of the space from thought leaders.
