This workbook provides a plethora of effective tools, traditional as well as innovative, that can be used in whole or as a part of a course of therapy and also as self-help. Survivors as well as therapists who have been frustrated by the rigidity of strict adherence to evidence-based practice will be greatly relieved to find a wealth of useful strategies to experiment, evaluate, and sort into a personally tailored trauma recovery program. This workbook is a godsend for the trauma field, expanding the possibilities for recovery in a most generous way.
