Unlock the secrets to smarter investing with Investing Cheats Hacks Hints Tips and Tricks That Will Help You Invest Like a Professional This practical and straightforward guide breaks down the complex world of investing into actionable insights and proven strategies Whether you re a beginner or looking to refine your skills this book equips you with the tools to navigate the markets minimize risk and maximize returns like a seasoned pro Empower your financial future with expert tips and techniques that make investing simple effective and rewarding Stock Market Investing Strategies For Beginners Shawn Anderson, 2020-10-06 Have you ever heard the word investing before but you have never understood what it really means It s actually quite simple it means making your money work while you do what you want Basically it s a different way of thinking about how to make money While growing up most of us have been taught that we can only earn an income by finding a good job and that s exactly what most of us do However there is a big problem with this if you want more money you have to work longer hours However there is a limit to the number of hours a day we can work on not to mention the fact that having a lot of money is not fun if we do not have the time to enjoy it This is why rich people do not have a job they have businesses that work for them Think about it you have a job that allows you to earn over 2000 dollars a month but that takes you over 13 hours a day 6 days out of 7 so about 11 remain and usually the hours of sleep should be at least 7 8 for a healthy lifestyle Considering also the displacements and the time lost to go to work you have 3 to 4 hours left where you most likely will use 2 for dinner in the evening In the end there are 2 actual hours of time per day which do not allow you to enjoy life to the fullest You will find yourself having a 2000 dollars a month salary which nowadays is nothing that will continue to accumulate as you will not absolutely enjoy them in any way This is what is often called the rat race Is there a solution Yes it exists and it is to take part of your money and invest it properly in the financial markets By doing so you are letting it work for you The possibilities are scary and extremely profitable Do you want one example Take a look at Apple s stocks Apple s stocks have risen at a frightening rate in the last 10 years from 10 to about 100 This means that with an investment of only 1 000 you would now have over 10 thousand dollars This is the power of online investing it allows you to grow your money in a totally automatic way Unfortunately there is no duplication of self to increase the time at work but instead you can create an extension of yourself that is your money and put it to work In this way while you are working for your employer or while you are at the bar with friends you can still earn at the same time thanks to the investment you made In a very simple way therefore you can make your money useful thus maximizing your earning potential even if you do not receive an increase in your pay or even if you do not decide to make an extraordinary one or you are looking for a more remunerative job There are many ways to do this This includes investing your money in stocks bonds mutual funds forex CFDs or real estate and many other things or even starting your own online business like affiliate marketing Sometimes people refer to these options as
