Atkinson, Rita L. Atkinson, 1979 *Peace of Mind for Your Aging Parents* Kenneth O. Doyle Ph.D., Larry K. Houk JD, 2018-06-21 Explains the most effective ways to discuss the legal and financial responsibilities that come with the end of life and tools for managing them such as wills trusts estate planning and cash management in the context of financial psychology Dying is complicated It presents myriad challenges at a time when people are least prepared to deal with complexity Typically aging people turn to their adult children and grandchildren their caregivers and their professional advisors to guide them in their final years This book is aimed directly at the children and grandchildren of aging parents to prepare them for meaningful conversations with their parents and among themselves It gives them the tools they need to communicate knowledgeably with caregivers and professional advisors and to make important decisions with or on behalf of those who depend on them The authors provide legal and financial tools and techniques including wills and trusts cash management and investment planning approaching each from both a financial and a psychological perspective They

recognize that some of the challenges that people face during their last few years of life cannot be controlled and describe not only what these tools and techniques can do but also what they can't. Those that cannot be controlled however can still be managed and the authors explain with clarity and compassion how to deal with them through psychological and spiritual engagement. **Annals of the American Academy of Political and Social Science**, 1923. Trick Or Treatment Richard B. Stuart, 1970. This book asserts that present theories and procedures for dealing with mental illness not only fail to cure patients in many cases but often actually aggravate the presenting problem. It is not a diatribe but a carefully reasoned argument citing hundreds of research studies and articles from professional publications. Stuart indicts our present systems for diagnosing and classifying mental disturbances and our procedures for institutionalizing patients. Specific treatment methods are criticized and case histories are cited. The author suggests that operant conditioning and related methodologies hold the greatest promise for the future. The Saturday Review of Politics, Literature, Science and Art, 1881. The Annals of the American Academy of Political and Social Science, 1923. **Cheap Psychological Tricks for Parents** Perry W. Buffington, 2003. **Supporting Personalized Learning and Students' Skill Development With AI** Khaldi, Mohamed, 2025-03-05. The integration of artificial intelligence AI into education has the potential to fundamentally change pedagogical practices with a positive impact on all aspects of teaching and learning. It is possible to design personalized learning paths for each learner including those with special needs or who speak different languages by adjusting the content and pace according to their strengths and weaknesses. AI tools such as virtual assistants and interactive educational applications can give immediate feedback to learners which is of paramount importance to keep them engaged and encourage continuous learning. Similarly, teachers can view AI-based data analytics and recommendations to improve their teaching methods and adapt their strategies in real time. **Supporting Personalized Learning and Students' Skill Development With AI** offers an in-depth exploration of how to integrate AI technology into pedagogical practice to revolutionize education by exploring all aspects of AI in education from intelligent tutoring systems that tailor lessons to the needs of each learner to automating administrative tasks that save teachers time. While addressing the ethical and practical challenges of this transformation, it highlights the urgent need to equip educators with the skills they need to benefit from AI. Covering topics such as autonomous learning, emotion detection, and digital literacy, this book is an excellent resource for teachers, school administrators, educational decision makers, computer developers, professionals, scholars, academicians, researchers, and more.
