Fictional Linguistic Landscapes Osman Solmaz, 2025-09-11 This book explores how fan practices such as fan art and fan fiction and linguistic landscapes, the language surrounding us in everyday contexts, can be integrated into foreign language teaching through the innovative Fictional Linguistic Landscapes pedagogy. It offers practical models for educators to use multimodal fan activities to enhance second language learning, including designing semiotic landscapes, soundscapes, skinscapes, and social mediascapes. Drawing on popular fictional universes like Dune, it illustrates how educators can utilize fan practices to foster deeper language learning, critical thinking, and intercultural awareness. The result is an innovative pedagogical approach that blends entertainment, social media, and popular culture with language learning in a way that promises to engage and inspire students. The book represents a step forward in EFL and TESOL pedagogy and demonstrates how theoretical advances can be used in ways that make language learning relevant to today's students.

Ballads of the North, Medieval to Modern Sandra Ballif Straubhaar, Richard Firth Green, 2019-04-15 This volume is intended as a belated but heartfelt thank you and Gedenkschrift to the late Larry Syndergaard (1936-2015), long time professor of English at Western Michigan University and Fellow of the Kommission für Volksdichtung International Ballad Commission. Larry's contributions down the decades to ballad studies, particularly Scandinavian and Anglophone, included dozens of papers and articles as well as his supremely useful book *English Translations of the Scandinavian Medieval Ballads*. As David Atkinson and Thomas A. McKean of the Kommission have written (May 2015), Larry was a sound scholar with a penetrating mind which he used to support, encourage, and befriend others rather than show off his own knowledge. He will be remembered for his contributions to international balladry, especially for providing a bridge between the English and Scandinavian language ballads. Larry's particular fascination with the vernacular ballads of the northern medieval world are reflected in this collection; topics here range from plot elements such as demonic whales, otherworldly antagonists, and mer people to thematic issues of genre, religion, and sexual mores. As a tribute to the global influence of Larry's scholarship and the broad academic interest in medieval ballads, the essays in this volume were contributed by twelve international scholars of narrative song based in Europe, North America, and Australia.
