## **Enlightenment Against Empire By Muthu Sankar 2003 Paperback:**

Alien Rule Michael Hechter, 2013-10-31 This book argues that alien rule can become legitimate to the degree that it provides governance that is both effective and fair Governance is effective to the degree that citizens have access to an expanding economy and an ample supply of culturally appropriate collective goods Governance is fair to the degree that rulers act according to the strictures of procedural justice These twin conditions help account for the legitimation of alien rulers in organizations of markedly different scale The book applies these principles to the legitimation of alien rulers in states the Republic of Genoa nineteenth and twentieth century China and modern Iraq colonies Taiwan and Korea under Japanese rule and occupation regimes as well as in less encompassing organizations such as universities academic receivership corporations mergers and acquisitions and stepfamilies Finally it speculates about the possibility of an international market in governance services *100 years of European Philosophy Since the Great War* Matthew Sharpe, Rory Jeffs, Jack Reynolds, 2017-02-14 This book is a collection of specifically commissioned articles on the key continental European philosophical movements since 1914 It shows how each of these bodies of thought has been shaped by their responses to the horrors set in train by World War I and considers whether we are yet post post war The outbreak of World War I in August 1914 set in chain a series of crises and re configurations which have continued to shape the world for a century industrialized slaughter the end of colonialism and European empires the rise of the USA economic crises fascism Soviet Marxism the gulags and the Shoah Nearly all of the major movements in European thinking phenomenology psychoanalysis Hegelianism Marxism political theology critical theory and neoliberalism were forged in or shaped by attempts to come to terms with the global trauma of the World Wars This is the first book to describe the development of these movements after World War I and as such promises to be of interest to philosophers and historians of philosophy around the world **Antiliberal Internationalism in the Twentieth Century** Matthijs Lok, Marjet Brolsma, Robin de Bruin, Stefan Couperus, Rachel McElroy White, 2025-05-21 This book shows how antiliberal discourse thought and mobilization have in defiance of nationalist aims been significantly shaped and determined in the international sphere as new collaborations position themselves against the liberal order established after the fall of the Berlin Wall Despite often drawing inspiration from nationalist movements and ideologies antiliberalism is a phenomenon that transcends domestic contexts and settings in important ways This collection of essays charts the many sided aspects of twentieth century internationalism and its contemporary developments across the globe Without excluding well known European sources of antiliberal internationalism it decentres the European experience by exploring specific case studies from South and East Asia the Middle East the Americas Africa and Oceania Moreover the volume abundantly demonstrates that liberalism and anti liberalism cannot be considered as fixed entities as anti liberalism was and is as much defined by its enemies as by its advocates This book is intended for scholars and students of International Studies Intellectual History Political History

Political Science European Studies and Global Studies as well as for journalists and policymakers interested in contemporary Europe cosmopolitanism political polarization and the traditions of the right and far right **Black Rights/white Wrongs** Charles Wade Mills,2017 Liberalism is the political philosophy of equal persons yet liberalism has denied equality to those it saw as black sub persons In *Black Rights White Wrongs The Critique of Racial Liberalism* political philosopher Charles Mills challenges mainstream accounts that ignore this history and its current legacy in the United States today *Hidden Liberalism* Hussein Banai,2020-12-10 Compared to rival ideologies liberalism has fared rather poorly in modern Iran This is all the more remarkable given the essentially liberal substance of various social and political struggles for liberal legality individual rights and freedoms and pluralism in the century long period since the demise of the Qajar dynasty and the subsequent transformation of the country into a modern nation state The deeply felt but largely invisible purchase of liberal political ideas in Iran challenges us to think more expansively about the trajectory of various intellectual developments since the emergence of a movement for reform and constitutionalism in the late nineteenth century It complicates parsimonious accounts of Shi ism secularism socialism nationalism and royalism as defining or representative ideologies of particular eras *Hidden Liberalism* offers a critical examination of the reasons behind liberalism s invisible yet influential status and its attendant ethical quandaries in Iranian political and intellectual discourses *Beyond Bauman* Michael Hviid Jacobsen,2016-10-26 Bringing together leading interpreters of Zygmunt Bauman s sociology this volume thinks with and beyond Bauman s work in order to show its continued relevance as a theory in its own right as an object of criticism and as a stepping stone towards a fuller understanding of contemporary society The volume deals with some proposed omissions and absences in Bauman s sociology with chapters comparing Bauman s ideas to those of other prominent social thinkers as well as chapters devoted to teasing out some problems and pitfalls in his work Paying attention to central concepts and themes of Bauman s thought authors engage with various aspects of his work considering potential deficiencies in his ethical perspective his neglect of the religious dimensions of modernity his lack of consideration for ethnicity and gender his overlooking the importance of socialisation in liquid modernity and his problematic argument for individual choice and freedom in a world that is increasingly closed down by consumer capitalism *Beyond Bauman* aspires to show that despite Bauman s status as a key sociological thinker there are also certain deficiencies in his work demand critical discussion It will be of use to scholars of sociology contemporary society social theory and modernity **American Book Publishing Record** ,2004 **The Enlightenment** Ryan Patrick Hanley,Darrin M. McMahon,2010 More than any earlier period of European intellectual history the age of Enlightenment infused the republic of letters with social and political significance this long awaited new collection from Routledge brings together in five volumes the very best scholarship on the period and its legacy It also incorporates historical and critical essays addressed to the Enlightenment s alleged responsibility for institutions or policies prevalent in the twentieth century including economic globalization and the Holocaust Union,

Nation, Or Empire David C. Hendrickson, 2009 Shatters the conventional belief that American foreign policy was borne out of a reaction to Pearl Harbor revealing instead a rich history of debates over the direction of American international relations many of which persist to this day

**Magnus Hirschfeld and the Quest for Sexual Freedom** Elena Mancini, 2010-10-15 Against the late nineteenth century European trend of theoretical elaborations of negative homosexual stereotypes and the legal persecution of homosexuals German sexologist Magnus Hirschfeld 1868 1935 introduced a scientific and humanistic approach to homosexual emancipation Radical from the outset his pioneering theorizations of gender overturned the dual sex system and revealed the artificiality of gender Beyond destabilizing traditional concepts of masculinity and femininity and substantiating the naturalness of such phenomena as homosexual intersexed and transgendered identities Hirschfeld deployed his theories to serve as the basis of a steadfast and influential campaign for the decriminalization of homosexuality and an international sexual freedom movement that championed the principal causes of the women s movement and the rights of all sexual minorities Integrating the predominant cultural scientific and political discourses during Hirschfeld s lifetime Elena Mancini illuminates his cosmopolitan and classical liberal political and cultural stance showing him as more than a homosexual theorist and activist This fascinating study shows how his opposition to fascism and to all forms of sexual and racial hierarchies makes him a humanist for our times and an inspiration for those who strive for social and political inclusion and tolerance

The Brokered World Simon Schaffer, 2009 Collection of essays focusing on the roles of intermediaries such as brokers and spies messengers and translators missionaries and entrepreneurs in linking different parts of the ever more densely entangled systems of knowledge production and circulation at a key moment in the development of global scientific commercial and political systems The period 1770 1820 was decisive for the reformation of imperial projects in the wake of military catastrophe and politico economic crisis both in the Atlantic and the Asian Pacific spheres economic and political worlds dominated by complex trade systems and violent contest This conjuncture also saw the overhaul of networks and institutions of natural knowledge whether commercial voluntary or organs of state Both the industrial and the second scientific revolutions have been dated to this moment New and decisive relations were forged between different cultures knowledge carriers The authors consider knowledge movements of the epoch that escape simple models of metropolitan centre and remote colonial periphery They question the immutable character of mediators and agents in knowledge communication
