Yearbook of European Environmental Law ,2008 Choice ,2006 **The British National Bibliography** Arthur James Wells, 2006 Building the Bridge Will Marshall, 1997-01-09 Four years ago the Progressive Policy Institute s Mandate for Change rocketed onto the New York Times best seller list and popularized many of the New Democrat ideas later adopted by the Clinton administration President elect Bill Clinton hailed the book as one that looks beyond the old Left Right debates of the past and tries to move us toward a better future Now in Building the Bridge 10 Big Ideas to Transform America the Institute has brought together some of America s most innovative public thinkers and policy entrepreneurs to challenge the President and all Americans to embrace a bold vision based on new ideas and enduring values This book looks beyond the election to radically refashion America s political and social agenda for the 21st century Rejecting both the big government solutions of the left and the economic voodoo of the right the authors focus on 10 new break the mold ideas for guiding America into the information age

Business Week ,2007 The Judges' Journal ,2001 **The Publishers Weekly** ,2002 *A Theory of Environmental Leadership* Mark Manolopoulos, 2021-03-15 In A Theory of Environmental

Leadership Mark Manolopoulos draws on his original model of leading outlined in his cutting edge book Following Reason to derive and develop the first properly systematic model of eco leadership Suppose humanity's relation with the Earth may be described in terms of leadership stages or modalities once upon a time the Earth led or ruled humanity and now we humans rule or lead the Earth When the Earth led the Earth flourished now that humankind leads the Earth flounders ecological crises multiply and intensify However there might be a third stage or modality of leadership humanity leading for the Earth leading in a way that allows the world including humans to re flourish What would be the nature of this truly environmental form of leadership A Theory of Environmental Leadership identifies and critically analyzes the two basic and incompatible positions associated with the way we construe and interact with the non human anthropocentrism human supremacism and ecocentrism ecological egalitarianism By rigorously analyzing and leveraging this polarity this book outlines an innovative theory of eco leadership together with some of its confronting but necessary measures Expansive and incredibly timely A Theory of Environmental Leadership is ideal for a range of audiences from scholars and students of environmental leadership studies to activists and policymakers The book's remarkable clarity and engaging character also makes it suitable for the general public

Leadership for Environmental Sustainability Benjamin W. Redekop, 2010-07-02 As the first book in the field of leadership studies to approach sustainability as a multi faceted leadership challenge Leadership for Environmental Sustainability will help to set the terms of the discussion on this topic among students scholars and practitioners of leadership for years to come It explores the connection between leadership and sustainability from a variety of disciplinary perspectives including sociology history psychology business literature communication and the arts With short chapters edited for readability the book is aimed at scholars practitioners students and educated lay readers interested in cutting edge research and thinking on this topic

Rethinking Leadership for a Green World Andrew Taylor, 2022-03-20 First James Lovelock and recently Prince William and David Attenborough believe that we have reached a tipping point in the process of climate change Whether they are right or not it is certainly true that the impact of humankind upon the ecology of the earth has reached a point where real changes in human behaviour are required If managers are to be enablers of planetary survival then we need to develop a new approach to risk which explicitly includes ecological limits upon economic behaviour This implies a fundamental reorientation of their role in allocating resources to minimise risk and maximise reward This book brings together some of the brightest contemporary thinkers on leadership complexity and sustainability to consider the big ideas that we will need to make the changes required and to outline the major themes that can inform a new approach to constructing a green world It looks at how to ensure that local models of sustainability are able to flourish in the context of global networks and presents specific case studies of markets and organisations that offer insights into the development integrated solutions and the leadership lessons we can learn Combining both theory and practice this book serves to guide business managers and provides deeper insight and critical perspectives on some of the key issues facing leaders moving

towards the green economy It also provides useful supplementary reading for students in business and environmental studies

Environmentally Sustainable Leadership Benjamin W.
