Posthuman Personhood Daryl J. Wennemann, 2013-05-02 Posthuman Personhood takes up the ethical challenge posed by Francis Fukuyama's work *Our Posthuman Future* Daryl J Wennemann argues that the traditional concept of personhood may be fruitfully applied to the ethical challenge we face in a posthuman age He draws upon Wilfrid Sellars treatment of the concept of a person within the manifest image of man in the world Sellars proposed that we develop a stereoscopic view of reality that includes both a scientific understanding of the world and a meaningful place for persons living and acting in the world Following Mary Anne Warren Wennemann develops a distinction between two meanings of the term human a biological meaning and a moral meaning and maintains that all biologically human beings are persons But it is not necessarily the case that all persons must be biologically human After drawing on a contemporary version of Kant's distinction between a theoretical possibility and a real possibility the book posits that biologically non human persons like robots computers or aliens are a theoretical possibility but that we do not know if they are a real possibility Finally Wennemann describes an ethic of self limitation for the posthuman age
