Upsetting Composition Commonplaces Ian Barnard, 2014-07-15 In Upsetting Composition Commonplaces Ian Barnard argues that composition still retains the bulk of instructional practices that were used in the decades before poststructuralist theory discredited them While acknowledging that some of the foundational insights of poststructuralist theory can be difficult to translate to the classroom Barnard upends several especially intransigent tenets that continue to influence the teaching of writing and how students are encouraged to understand writing Using six major principles of writing classrooms and textbooks clarity intent voice ethnography audience and objectivity Barnard looks at the implications of poststructuralist theory for pedagogy While suggesting some evocative poststructuralist pedagogical practices the author focuses on diagnosing the fault lines of composition s refusal of poststructuralism rather than on providing solutions in the form of teaching templates Upsetting Composition Commonplaces addresses the need to more effectively engage in poststructuralist concepts in composition in an accessible and engaging voice that will advance the conversation about relations between the theory and teaching of writing

Rhetor Response Peter H. Khost, 2018-09-10 Bridging the disciplinary divide between writing and literature Rhetor Response introduces the concept and pedagogical applications of literary affordances the ways in which readers use and integrate literature into their own writing or lives Unconcerned with authorial intent interpretive meaning or critical reception affordance signifies a shift in focus from what literary texts mean and do to what one can do with them This book presents both opportunities and challenges to writing studies a field whose burgeoning disciplinary independence ironically relies on a sizable underclass of specialists in literature rather than writing Incorporating elements of rhetorical theory literary criticism pedagogical methodology political critique and psychological and philosophical memoir Peter H Khost complicates and revives the relevance of literature from belles lettres to fanfiction by turning from interpretation to affordance in order to identify readers applications of literary textual features to unrelated lived situations Rhetor Response theorizes and exemplifies literary affordance as a constructive step toward professional reconciliation as well as an entry into greater textual power and pleasure for students and readers It is a one of a kind resource for college writing program administrators faculty and scholars in English and writing studies and graduate and advanced undergraduate students across both disciplines

Teaching Religion and Film Gregory J Watkins, 2008-08-22 In a culture increasingly focused on visual media students have learned not only to embrace multimedia presentations in the classroom but to expect them Such expectations are perhaps more prevalent in a field as dynamic and cross disciplinary as religious studies but the practice nevertheless poses some difficult educational issues the use of movies in academic coursework has far outpaced the scholarship on teaching religion and film What does it mean to utilize film in religious studies and what are the best ways to do it In Teaching Religion and Film an interdisciplinary team of scholars thinks about the theoretical and pedagogical concerns involved with the intersection of film and religion in the classroom They examine the use of film to teach specific religious traditions religious theories and perspectives on fundamental human values Some instructors already teach some version of a film and religion course and many have integrated film as an ancillary to achieving central course goals This collection of essays helps them understand the field better and draws the sharp distinction between merely watching movies in the classroom and comprehending film in an informed and critical way
