Evocative Coaching Transforming Schools One Conversation At A Time:

Evocative Coaching Bob Tschannen-Moran, Megan Tschannen-Moran, 2010-06-18 There is a lot of conversation about how to make schools better. Unfortunately, the nature of those conversations often makes things worse. *Evocative Coaching: Transforming Schools One Conversation at a Time* maps out a way to change that. By taking a teacher-centered, no-fault, strengths-based approach to performance improvement, the Evocative Coaching model generates the motivation and movement that enables teachers and schools to achieve desired outcomes and enhance quality of life. Viewed as a dynamic dance, the model is choreographed in four steps: Story, Empathy, Inquiry, and Design, which are each laid out in its own chapter with powerful illustrative materials and end-of-chapter discussion questions to prompt further reflection. Bringing together the best research and wisdom in educational leadership and professional coaching, authors Bob and Megan Tschannen-Moran have developed a simple yet profound way of facilitating new conversations in schools through Story, Listening, Expressing Empathy, Appreciative Inquiry, and Design Thinking. It is an iterative process that moves beyond old ways of thinking, doing, and being. It is an inspirational process that reinvigorates the passion for making schools better, one conversation at a time. This happens when coaches give teachers our full, undivided attention; accept and meet teachers where they are, right now, without making them wrong; ask and trust teachers to take charge of their own learning and growth; make sure teachers are talking more than we are; enable teachers to appreciate the positive value of their own experiences; harness the strengths teachers have to meet challenges and overcome obstacles; reframe difficulties and challenges as opportunities to learn and grow; invite teachers to discover possibilities and find answers for themselves; dialogue with teachers regarding their higher purpose for teaching; uncover teachers' natural impulse to engage with colleagues and students; assist teachers to draw up a personal blueprint for professional mastery; support teachers in brainstorming and trying new ways of doing things; maintain an upbeat, energetic and positive attitude at all times; collaborate with teachers to design and conduct appropriate learning experiments; enable teachers to build supportive environments and teams; use humor to lighten the load and inspire; and challenge teachers to go beyond what they would do alone. Each chapter provides a research-based theory to support the strategies presented and includes specific suggestions and anecdotes. The Evocative Coaching model makes coaching enjoyable by getting people to focus on what they do best, and it invites larger, more integral conversations so that people talk about their work in the context of other things they care about. Resting on strong evidence-based practices, the Evocative Coaching model offers educators the help they need to meet the challenges of increased accountability and expectations. This model can also be used effectively by coaches and leaders in other organizational contexts.
